To whom It May Concern

This is to certify that Modern Cleaning and Servicing Pvt. Ltd. has provided cleaning and grounds maintenance services to UNMIN since February 2010. The United Nations facilities in New Baneshwor comprised a large number of buildings and a considerable ground area. Modern Cleaning and Servicing Pvt. Ltd. maintained these facilities through quality cleaning services, grounds maintenance and gardening to an International standard of cleanliness and presentation.

As International civil servants UNMIN staff were demanding clients and I am happy to attest Modern Cleaning and Servicing Pvt. Ltd matched the standards requested. Most importantly the company management is engaged in ensuring the customer requirements are catered for. Equally we found that the on-site supervision was exemplary.
